To our Williamsburg Dental families,

We hope that this letter finds you and your family healthy and safe. These are very uncertain and unsettling times that none of us have ever encountered before.

We have been following the course of the COVID-19 pandemic in our area and in the country. We have also studied recommendations from the CDC and other groups with regard to treating Dental patients on an emergency basis and otherwise. At this time, the Department of Health is recommending no dental care at all, including emergency visits. We truly apologize for the inconvenience this is causing but in order to do our part in minimizing the spread of this virus it will be necessary for us to remain closed until we receive further notice.

If you have an upcoming appointment, our office will contact you to reschedule. Our phones will be open to receive messages and to diagnose patients in emergency situations.

Thank you for your patience as we get through this together. We are all looking forward to getting back to Williamsburg Dental and caring for our patients as soon as it is safe to do so. Nothing would make us happier than to resume treating our wonderful patients here at Williamsburg Dental.

Stay safe and healthy,

The Williamsburg Dental Team
